

Curious Minds LLC

Part-time STEM Assistant Instructor

Curious Minds, LLC is hiring a part-time STEM Assistant Instructor. When families and schools are looking for exceptional STEM (science, technology, engineering and mathematics) programs for their young learners they call Curious Minds LLC.

The most important characteristics about our STEM team is our amazing teachers and curriculum writers with diverse backgrounds and creativity. Each fills a unique niche in our company profile, which allows us to reach a broad audience of educators and learners. We believe children are natural inventors, full of curiosity and passion, which is why our programs are an incredible fit for all learners.

Schedule

Monday	12:30 PM - 2:00 PM
Tuesday	9:00 AM - 2:00 PM
Wednesday	9:00 AM - 12:00 PM
Thursday	9:00 AM - 12:00 PM

- Opportunity for more hours.
- Opportunity for summer employment.
- A minimum of 2 years' experience working with children is required.

Interested? Send your resume to ABlaubach@CuriousMinds.Info. No telephone calls please.

Curious Minds, LLC. was founded in 2009 by Amy Blaubach in Bloomington, Minnesota. When Amy and her husband's children started school, Amy had the idea of creating Curious Minds. Amy had been a research scientist in Yellowstone National Park and had a lot of fun presenting her work to children by having them experience what a scientist does — not just telling them. This, combined with being a classroom teacher and program writer for the Science Museum of Minnesota, laid the foundation for Curious Minds.

With degrees in Resource Management, Geology, Chemistry, Earth & Space Science Education and over two decades of teaching experience, Amy began writing curriculum for children to engage their whole brain through the inquiry science method of teaching. This empowers children to learn science while having fun!
