

Driver Safety Instructor

If you are passionate about safety, enjoy helping others and strive to make your community a better place, then AARP Driver Safety would like to meet you. AARP Driver Safety is the nation's first and largest **older driver safety initiative** with award winning class material.

AARP Driver Safety is seeking volunteer instructors for AARP's Smart Driver classroom course to help older drivers stay safe on the road. Instructors organize and teach AARP Smart Driver classroom courses at local community centers, libraries, hospitals and senior centers all over Minnesota.

Interested volunteers should be available to instruct at least three, 4-hour courses per year - days or evenings - to fit your schedule. You can choose your most convenient local class location and teach as often as you like. There is no age limit and you need not be retired.

Training is primarily done on your home computer at your own pace and each recruit is also assigned an experienced mentor. AARP Driver Safety volunteer positions are unpaid. However, volunteers are reimbursed for approved, program related, out-of-pocket expenses, such as mileage, parking, and long-distance telephone calls.

In addition to English-speaking volunteers, the initiative has a strong need for Spanish-speaking volunteers.

Skills Desired: Public Speaking/Meeting Facilitation, Education/Training, basic computer skills and internet access with an e-mail account

Our instructors say teaching these classes is very satisfying with a strong sense of community experience and knowing that they are helping keep the roads safer for everyone.
